"(a) FINDINGS.—The Congress finds the following:

"(1) States are responding with some success to multiple pressures to improve educational and transitional services and results for children with disabilities in response to growing demands imposed by ever-changing factors, such as demographics, social policies, and labor and economic markets.

"(2) In order for States to address such demands and to facilitate lasting systemic change that is of benefit to all students, including children with disabilities, States must involve local educational agencies, parents, individuals with disabilities and their families, teachers and other service providers, and other interested individuals and organizations in carrying out comprehensive strategies to improve educational results for children with disabilities.

"(3) Targeted Federal financial resources are needed to assist States, working in partnership with others, to identify and make needed changes to address the needs of children with disabilities into the next century.

"(4) State educational agencies, in partnership with local educational agencies and other individuals and organizations, are in the best position to identify and design ways to meet emerging and expanding demands to improve education for children with disabilities and to address their special needs.

"(5) Research, demonstration, and practice over the past 20 years in special education and related disciplines have built a foundation of knowledge on which State and local systemic-change activities can now be based.

"(6) Such research, demonstration, and practice in special education and related disciplines have demonstrated that an effective educational system now and in the future must—

"(B) create a system that fully addresses the needs of all students, including children with disabilities, by

addressing the needs of children with disabilities in carrying out educational reform activities:

"(C) clearly define, in measurable terms, the school and post-school results that children with disabilities are expected to achieve;

"(D) promote service integration, and the coordination of State and local education, social, health, mental health, and other services, in addressing the full range of student needs, particularly the needs of children with disabilities who require significant levels of support to maximize their participation and learning in school and the community;

"(E) ensure that children with disabilities are provided assistance and support in making transitions as described in section 674(b)(3)(C);

"(F) promote comprehensive programs of professional development to ensure that the persons responsible for the education or a transition of children with disabilities possess the skills and knowledge necessary to address the educational and related needs of those children;

"(G) disseminate to teachers and other personnel serving children with disabilities research-based knowledge about successful teaching practices and models and provide technical assistance to local educational agencies and schools on how to improve results for children with disabilities;

"(H) create school-based disciplinary strategies that will be used to reduce or eliminate the need to use suspension and expulsion as disciplinary options for children with disabilities;

"(I) establish placement-neutral funding formulas and cost-effective strategies for meeting the needs of children with disabilities; and

"(J) involve individuals with disabilities and parents of children with disabilities in planning, implementing, and evaluating systemic-change activities and educational reforms.

"(b) **PURPOSE.**—The purpose of this subpart is to assist State educational agencies, and their partners referred to in section 652(b), in reforming and improving their systems for providing educational, early intervention, and transitional services, including their systems for professional development, technical assistance, and dissemination of knowledge about best practices, to improve results for children with disabilities.

However, you must include all of the application narrative in Part III.

We will reject without consideration or evaluation any application if—

- You apply these standards and exceed the page limit; or
- You apply other standards and exceed the equivalent of the page limit.

Absolute Priority

Under section 653 and 34 CFR 75.105(c)(3), we will give an absolute preference to applications that meet the following priority. We will fund under this competition only those applications that meet this absolute priority.

This priority supports projects that assist State educational agencies and their partners in reforming and improving their systems for providing educational, early intervention, and transitional services, including their systems for professional development, technical assistance, and dissemination of knowledge about best practices, to improve results for children with disabilities.

State Improvement Plan

Applicants must submit a State improvement plan that—

(a) Is integrated, to the maximum extent possible, with State plans under the Elementary and Secondary Education Act of 1965 and the Rehabilitation Act of 1973, if appropriate;

(b) Identifies those critical aspects of early intervention, general education, and special education programs (including professional development, based on an assessment of State and local needs) that must be improved to enable children with disabilities to meet the goals established by the State under section 612(a)(16) of the Act. Specifically, applicants must include:

(1) An analysis of all information, reasonably available to the State educational agency, on the performance of children with disabilities in the State, including—

(i) Prepare general and special education personnel with the content knowledge and collaborative skills needed to meet the needs of children with disabilities, including how the State will work with other States on common certification criteria;

(ii) Prepare professionals and paraprofessionals in the area of early intervention with the content knowledge and collaborative skills needed to meet the needs of infants and toddlers with disabilities;

(iii) Work with institutions of higher education and other entities that (on both a pre-service and an in-service basis) prepare personnel who work with children with disabilities to ensure that those institutions and entities develop the capacity to support quality professional development programs that meet State and local needs;

(v) Work in collaboration with other States, particularly neighboring States, to address the lack of uniformity and reciprocity in the credentialing of teachers and other personnel;

education, special education, and related services;

(ix) Integrate its plan, to the maximum extent possible, with other professional development plans and activities, including plans and activities developed and carried out under other Federal and State laws that address personnel recruitment and training; and

(x) Provide for the joint training of parents and special education, related services, and general education personnel;

(5) Address systemic problems identified in Federal compliance reviews, including shortages of qualified personnel;

(6) Disseminate results of the local capacity-building and improvement projects funded under section 611(f)(4) of the Act;

(e) Other individuals.

Reporting Procedures

Each State educational agency that receives a grant must submit performance reports to the Secretary pursuant to a schedule to be determined by the Secretary, but not more frequently than annually. The reports must describe the progress of the State in meeting the performance goals established under section 612(a)(16) of the Act, analyze the effectiveness of the State's strategies in meeting those goals, and identify any changes in the strategies needed to improve its performance. Grantees must also provide information required under EDGAR at 34 CFR 80.40.

Use of Funds

Each State educational agency that receives a State Improvement Grant under this program—

(a) May use grant funds to carry out any activities that are described in the State's application and that are consistent with the purpose of this program;

(b) Shall, consistent with its partnership agreement established under the grant, award contracts or subgrants to local educational agencies, institutions of higher education, and parent training and information centers, as appropriate, to carry out its State improvement plan; and

(c) May award contracts and subgrants to other public and private entities, including the lead agency under part C of the Act, to carry out that plan;

(d)(1) Shall use not less than 75 percent of the funds it receives under the grant for any fiscal year—

(i) To ensure that there are sufficient regular education, special education, and related services personnel who have the skills and knowledge necessary to meet the needs of children with disabilities and developmental goals of young children; or

(ii) To work with other States on common certification criteria; or

For purposes of this competitive preference, applicants can be awarded up to a total of 10 points in addition to those awarded under the published selection criteria for this priority. That is, an applicant meeting this competitive preference could earn a maximum total of 110 points.

Intergovernmental Review

This program is subject to Executive Order 12372 and the regulations in 34 CFR part 79.

One of the objectives of the Executive order is to foster an intergovernmental partnership and a strengthened federalism. The Executive order relies on processes developed by State and local governments for coordination and review of proposed Federal financial assistance.

This document provides early notification of our specific plans and actions for this program.

Applicants must contact the appropriate State Single Point of Contact (SPOC) to find out about, and to comply with, the State's process under Executive Order 12372. Applicants proposing to perform activities in more than one State should immediately contact the SPOC for each of those States and follow the procedure established in each State under the Executive Order. See the latest official SPOC list on the Website of the Office of Management and Budget at the following address: <http://www.whitehouse.gov/omb/grants/spoc.html> In States that have not established a process or chosen a program for review, State, areawide, regional, and local entities may submit comments directly to the Department.

Any State Process Recommendation and other comments submitted by a State SPOC and any comments from State, areawide, regional, and local entities must be mailed or hand-delivered by the date indicated in this notice to the following address: The Secretary, E.O. 12372—CFDA# 84.323A, U.S. Department of Education, room 7E200, 400 Maryland Avenue, SW., Washington, DC 20202-0125.

Proof of mailing will be determined on the same basis as applications (see 34 CFR 75.102). Recommendations or comments may be hand-delivered until 4:30 p.m. (Washington, DC time) on the date indicated in this notice.

Please note that the above address is not the same address as the one to which the applicant submits its completed application. *Do not send applications to the above address.*

Notes

(1) The U.S. Postal Service does not uniformly provide a dated postmark. Before relying on this method, an applicant should check with its local post office.

(2) The Application Control Center will mail a Grant Application Receipt Acknowledgment to each applicant. If an applicant fails to receive the notification of application receipt within 15 days from the date of mailing the application, the applicant should call the U.S. Department of Education Application Control Center at (202) 708-9493.

(3) If your application is late, we will notify you that we will not consider the application.

Application Instructions and Forms

The appendix to this notice is divided into three parts, plus a statement regarding estimated public reporting burden, additional non-regulatory guidance, and various assurances, certifications, and required documentation. These parts and additional materials are organized in the same manner that the submitted application should be organized. The parts and additional materials are as follows:

Part I: Application for Federal Assistance (Standard Form 424 (Rev. 11-2001)) and instructions.

Part II: Budget Information—Non-Construction Programs (ED Form No. 524) and instructions. The budget section of the application form requires all applicants for multi-year projects to provide detailed budget information for the total grant period requested. The Department will establish, at the time of initial award, the funding levels for each year of the grant award. By requesting detailed budget information in the initial application for the total grant period, the need for a formal noncompeting continuation application in the remaining years has been eliminated. A performance report will be required annually to determine substantial progress, rather than a non-competing continuation application.

Part III: Application Narrative.

Additional Materials

The following forms and other items must be included in the application:

a. Estimated Public Reporting Burden.
b. Assurances—Non-Construction Programs (Standard Form 424B) and instructions.

c. Certifications Regarding Lobbying; Debarment, Suspension, and Other Responsibility Matters; and Drug-Free Workplace Requirements (ED 80-0013).

d. Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion—Lower Tier Covered Transactions (ED 80-0014) and instructions. (Note: ED Form GCS-0014 is intended for the use of grantees and should not be transmitted to the Department.)

e. Certification of Eligibility for Federal Assistance in Certain Programs (ED 80-0016).

f. Disclosure of Lobbying Activities (Standard Form LLL) (Rev. 7-97) and instructions.

g. Table of Contents.

An applicant may submit information on a photostatic copy of the application and budget forms, the assurances, and the certifications. However, the application form, the assurances, and the certifications must each have an original signature. All applicants must submit *ONE* original signed application, including ink signatures on all forms and assurances, and *THREE* copies of the application. Please mark each application as "original" or "copy". No grant may be awarded unless a completed application has been received. **FOR APPLICATIONS AND GENERAL INFORMATION CONTACT:** Requests for applications and general information should be addressed to the Grants and Contracts Services Team,

400 Maryland Avenue, SW., room 3317, Switzer Building, Washington, DC 20202-2641. The preferred method for requesting information is to FAX your request to: (202) 205-8717. Telephone: (202) 260-9182. Individuals who use a telecommunications device for the deaf (TDD) may call the TDD number: (202) 205-8953.

Individuals with disabilities may obtain a copy of this notice or the application packages referred to in this notice in an alternative format (e.g., Braille, large print, audiotape, or computer diskette) by contacting the Department as listed above. Budget

Budget line items must support the goals and objectives of the proposed project and be directly applicable to the program design and all other project components.

Final Application Preparation

Use the above checklist to verify that all items are addressed. Prepare one original with an original signature, and include six additional copies. Do not use elaborate bindings or covers. The application must be mailed to the Application Control Center (ACC) and postmarked by the deadline date of February 15, 2002.

Questions and Answers

Following is a series of questions and answers that will serve as guidance for State educational agency (SEA) in completing the grant application for a State Improvement Grant (SIG) as authorized by the Individuals with Disabilities Education Act (IDEA). The questions were chosen to provide additional insight into the statutory requirements contained in the grant application. The questions were generated from a number of sources including parents of students with disabilities, Regional Resource Centers, the Federal Resource Center, State Directors of Special Education, SEA staff and staff from the Office of Special Education Programs.

Eligible Applicants

1. Who May Apply for a State Improvement Grant?

A State educational agency of one of the 50 States, the District of Columbia, or the Commonwealth of Puerto Rico or an outlying area (United States Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern

Mariana Islands)¹ (sections 602(18), 602(27), 652(a), and 655(a)(1)(2)).

2. Can Two or More SEAs Apply Jointly for a SIG?

No. A State applying for a State Improvement Grant must submit an individual application. However, included in the application will be a description of how: (1) The State will work to develop collaborative agreements with other States for the joint support and development of programs to prepare personnel for which there is not sufficient demand within a single State to justify support or development of this type of program of preparation; and (2) the State will work in collaboration with other States, particularly neighboring States, to address the lack of uniformity and reciprocity in the credentialing of teachers and other personnel (section 653(c)(3)(D)(iv) and (v)).

Partners

3. With Whom Is the State Supposed to Form Partnerships and How Are the Partnerships Structured?

Part D Subpart 1—State Program Improvement Grants for Children with Disabilities, section 652(b) describes three types of State partners. In order to be considered for a State Improvement Grant, a State educational agency must establish a partnership with individuals and organizations considered "Required Partners." Required partners are made up of two subsets of partners—those called "Contractual partners" and those called "Other partners." The SEA's contractual partners are local educational agencies and other State agencies involved in, or concerned with, the education of children with disabilities. These partners are called contractual because they must be parties to a formal "partnership agreement" that is explained further below in question four.

Other partners include individuals and organizations involved in, and concerned with, the education of children with disabilities, with whom the SEA works in partnership to implement the State improvement grant. Other partners may be, but the SEA is not required to make them, parties to the formal partnership agreement. Those "other partners" may include the Governor; parents of children with disabilities; parents of nondisabled

¹ Unless otherwise noted, the term "State" refers to the 50 States, the District of Columbia, the Commonwealth of Puerto Rico and the outlying areas (United States Virgin Islands, Guam, American Samoa and the Commonwealth of the Northern Mariana Islands).

children; individuals with disabilities; organizations representing individuals with disabilities and their parents, such as the parent training and information centers;² community-based and other nonprofit organizations involved in the education and employment of individuals with disabilities; the lead State agency for Part C; general and special education teachers, and early intervention personnel; the State advisory panel established under Part B; the State interagency coordinating council established under Part C; and institutions of higher education (IHEs) within the State. The State is encouraged to only partner with those IHEs that are currently implementing or, based on the partnership Agreement, will develop and implement, training programs that are consistent with the principles of IDEA Amendments of 1997 (e.g., training that facilitates access to the general education curriculum; training that facilitates inclusionary practices; joint training of general educators, special educators and parents, where appropriate; training that targets pedagogical practices that focus on accommodating and modifying instruction to meet State standards). Based on the needs assessment, the State must focus at least 75% of the funds received under the State Improvement Grant on the professional development and training of regular education, special education, or related services personnel (only 50% of the funds must be used on professional development if the State can demonstrate to the Department that it has sufficient personnel; see question 13 for additional clarification). In order to ensure that the perspectives of school based staff are represented in the grant activities, the State is encouraged to incorporate into its partnership agreement and partnership activities, professional organizations that negotiate for and may represent school-based staff.

In addition to required partners, the SEA, at its option, may include as partner's individuals and organizations called "Optional Partners". The SEA may include "optional partners" as parties to the formal partnership agreement or work in partnership with them, without them being parties to the partnership agreement. Those optional partners may include individuals knowledgeable about vocational education, the State agency for higher education, the State vocational rehabilitation agency, public agencies

with jurisdiction in the areas of health, mental health, social services, and juvenile justice and other individuals.

4. What Is the Partnership Agreement and What Must It Include?

Each State's application must include a description of the partnership agreement entered into by the SEA with its contractual partners and with any "other" and "optional" partners who will be parties to the partnership agreement. As specified in the grant application package, the partnership agreement must specify the nature and extent of the partnership among the SEA, the LEAs, and other State agencies involved in, or concerned with, the education of children with disabilities. It must specify the respective roles of each member of the partnership in the implementation of the proposed State improvement grant. The partnership agreement must also specify how the SEA, LEAs, and other State agencies identified above, will work in partnership with other persons and organizations involved in, and concerned with, the education of children with disabilities (these would be the "other partners" and any "optional partners"), and must specify the respective roles of each of these persons and organizations (section 653(c)(1)(B)).

The partnership agreement must indicate that it is in effect for the period of the grant. The terms of the partnership agreement will determine whether the SEA will award subgrants or contracts to any of the partners listed in section 654(a)(2)(A).

5. What Is the Connection Between the Partnership Agreement and the SEA's Use of Funds?

The SEA must, as appropriate, award contracts or subgrants to LEAs, IHEs, and parent training and information centers identified in the partnership agreement to carry out the State improvement grant activities. To carry out the State improvement grant activities, the SEA may also award contracts and subgrants to other public and private entities, including the lead agency under Part C and other agencies that are partners, as well as public and private entities that are not partners. It is anticipated that a SEA will need and desire the resources of other individuals and organizations to develop and implement all of the systemic change, technical assistance, in-service and pre-service training, dissemination and assessment activities designated in the State improvement grant application. There is, however, no required amount

of funds that must be used for contracts or subgrants (section 654(a)(2)).

Funding Availability and Levels

6. What are the grant amounts to States?

We must make a grant to each State educational agency whose application we selected for funding under this subpart in an amount for each fiscal year that is: (1) Not less than \$530,000, nor more than \$2,120,000, in the case of the 50 States, the District of Columbia, and the Commonwealth of Puerto Rico; and (2) not less than \$84,800, in the case of an outlying area (United States Virgin Islands, Guam, American Samoa and the Commonwealth of the Northern Mariana Islands (Section 655(a)). This means that the Department will reject and will not consider any application that proposes a budget that exceeds the maximum award amount or is less than the minimum award amount for any single budget period of 12 months.

7. How Will Decisions Be Made Regarding the Amount of Funds That States Will Receive If Approved for a State Improvement Grant?

The Department will set the amount of each grant, within the limits outlined in the response to question 6, after considering: (1) The relative population of the State; (2) the types of activities proposed by the State; and (3) the amount of funds available for making the grants (section 655(c)). Using the same considerations, (but without the increase in the minimum and maximum awards to account for inflation that we have added for this competition) we funded successful applications for fiscal years 1998, 1999 and 2000 at the following levels:

North Dakota	\$500,000
Vermont	500,000
Wyoming	500,000
Alaska	550,000
Montana	550,000
Nebraska	575,816
Utah	578,551
Maine	600,000
New Hampshire	600,000
Hawaii	600,000
Idaho	625,000
Oklahoma	814,000

8. How Will the Connection Between Grant Amounts and "Need" Be Determined?

As previously stated in the response to question 7, we must set the amount of each grant after considering: (1) The relative population of the State; (2) the types of activities proposed by the State or outlying area; and (3) the amount of funds available for making the grants. "Need" will be determined through the quality of the needs assessment performed under section 653(b) including: (i) An analysis of all information, reasonably available to the State educational agency, on the performance of children with disabilities in the State; (ii) an analysis of State and local needs for professional development for personnel to serve children with disabilities; (iii) an analysis of the major findings of the Department's most recent reviews of State compliance, as they relate to improving results for children with disabilities; and (iv) an analysis of other information, for example, findings made by the Department's Office for Civil Rights, reasonably available to the State, on the effectiveness of the State's systems of early intervention, special education, and general education in meeting the needs of children with disabilities.

9. What We Will Consider In Making An Award On a Competitive Basis?

Using the selection criteria identified elsewhere in this application package, we expect to select for funding applications from States that demonstrate a need for improvement and effective strategies to meet those State needs. The application should show how the State plans to fulfill the purpose of the State Improvement Grant, which is to assist State educational agencies and their partners in reforming and improving their systems for providing educational, early intervention, and transitional services, including their systems for professional development, technical assistance, and dissemination of knowledge about best practices, to improve results for children with disabilities. We will give priority to applications on the basis of need, as indicated by information from the findings of Federal compliance reviews (section 653(d)).

Improvement Strategies and Use of Funds

10. Can Funds From the State Improvement Grants Be Distributed to LEAs on a Competitive Basis?

Yes. The statute does not provide a particular method for States to use when distributing State Improvement Grant funds to LEAs or other entities. When awarding and administering subgrants, under 34 CFR 80.37(a), the State must follow State law and procedures. As long as the SEA's proposal to contract or subgrant SIG funds is consistent with the partnership agreement and the funds are used to support the activities specified in the approved grant application, there is no statutory prohibition against the funds being distributed to LEAs on a competitive basis.

11. Can Charter Schools Be Involved as Partners in the State Improvement Grant?

Yes. Charter schools are schools under contract—or charter—between a public agency and groups of parents, teachers, community leaders or others who want to create alternatives and choice within the public school system. Charter schools can be involved as partners in the State Improvement Grant, either as an LEA or as part of an existing LEA, consistent with the State charter schools law.

12. Does the "Service Obligation" Apply to the Use of State Improvement Grant Funds If They Are Being Used for Scholarships?

No. The "service obligation" contained under the personnel preparation discretionary grant program provides that a recipient of a scholarship funded by the personnel preparation program under section 673(b), (c), (e), and to the extent appropriate (d), must subsequently perform work in the field in which they were trained or repay the cost of the financial assistance. The service obligation only applies to scholarships awarded under the personnel preparation program. However, consistent with State law, a SEA may impose its own service obligation.

13. Can Funds Be Used To Prepare Early Intervention Personnel?

Yes, but only in limited circumstances. Under section 654(b)(1), a State educational agency that receives a grant must use not less than 75 percent of the funds it receives under the grant for any fiscal year to work with other States on common certification criteria or to ensure that there are

sufficient regular education, special education, and related services personnel who have the skills and knowledge necessary to meet the needs of children with disabilities and developmental goals of young children. This section ensures that based on the needs assessment, the State focuses at least 75% of the funds received under the State Improvement Grant on the professional development and training of regular education, special education, or related services personnel. Only 50% of the funds must be used on professional development if the State can demonstrate to the Department that it has sufficient personnel. Training that prepares personnel to deliver early intervention services that could not also be considered regular education, special education, or related services would not be a permissible use of the 75%, or 50% as the case may be, of the funds. However, it would be permissible for early intervention personnel to participate in training in those areas of special education and related services that would be useful to them, even if the training is funded using the 75% of the funds. There is no limitation on the use of the remaining 25% of the funds received under the SIG; it can be used to train personnel to provide early intervention services or for any other activity in an approved SIG.

14. How Does a State Demonstrate That It Meets the Requirement To Use at Least 75% (or 50% If Applicable) of the Grant Funds for Professional Development?

States should structure the presentation of their budget so that the Department can easily determine that the State has met the 75% or 50% requirement as the case may be.

15. What Is the Relationship of the SIG to the State Set Aside Under Part B?

In order to carry out the activities proposed in the State's SIG application, a State may choose to supplement the State Improvement Grant award with funds from the IDEA Part B State set aside (i.e., the portion of the IDEA, Part B grant awards retained for use by the SEA under sections 611(f) and 619(d) of the Act for discretionary purposes).

16. Can Funds From Sources Other Than the SIG Be Used To Support the Required Activities for Awards Under This Program?

Yes. In addition to the SIG award, funds from other sources (e.g., other IDEA discretionary grants, Part B State set aside funds, preschool grants) may be used, so long as those activities are permissible under the funding statute

and regulations to carry out any activities described in the State's SIG application. States may also use funds from private sources (e.g. foundations) to carry out activities described in the State's application. In its State Improvement Plan, the State must describe the amount and nature of funds from any other sources, including the Part B funds retained for use under sections 611(f) and 619(d) of the Act and Part D discretionary funds that will be committed to the SIG program.

17. Can SIG Funds Be Used for Direct Services to Children With Disabilities?

Yes. The statute does not forbid the use of SIG funds for direct services to children with disabilities; however, funding for these services must come from the 25% or 50% of the grant award, as the case may be, not obligated by statute to fund professional development activities or to work with other States on common certification criteria. In addition, the need for direct services must be one of the critical aspects of early intervention, general education and special education identified in the State's need assessment. The direct services improvement strategy must be described in the States' application and be consistent with the purpose of the grant, which is to assist State educational agencies and their partners in reforming and improving their systems for providing educational, early intervention, and transitional services, including their systems for professional development, technical assistance, and dissemination of knowledge about best practices, to improve results for children with disabilities.

Strategies Used To Address Identified Needs

18. Is Interstate Personnel Preparation Mandatory?

No. The State is required to describe how it will work to develop collaborative agreements with other States for the joint support and development of programs to prepare personnel for which there is not sufficient demand within the State to justify support or development of this type of program of preparation (section 653(c)(3)(D)(iv)). If the State demonstrates, through its needs assessment, that there is sufficient demand within the State to support its own personnel preparation programs, then interstate collaborative agreements are not required.

19. Is Training of General Education Personnel Required?

Yes. In its application, the State is required to include a description of how the State will prepare general as well as special education personnel with the content knowledge and collaborative skills needed to meet the needs of children with disabilities (section 653(c)(3)(D)(i)).

20. Is Training of Parents Required?

Yes. In its application, the State is required to include a description of how the State will provide for the joint training of parents and special education, related services, and general education personnel (section 653(c)(3)(D)(x)).

Role of Regional Resource Center/ Technical Assistance and Dissemination Projects

21. What Role Can the Regional Resource Center (RRC) Play in the Development of the State Improvement Grant Application?

The RRC is encouraged to provide general technical assistance to States in the development of their State improvement grant application. An RRC is funded to provide technical assistance and resources to all States within its region and must do so on an equitable basis across those States. Helping States improve their special education programs is the central mission of the RRCs and many State activities related to the State Improvement Grant program will be crucial in these improvement efforts. It would be inappropriate, however, for an RRC to help a State in drafting its grant application or even to provide technical assistance on strategies to improve the competitiveness of a State's application because it could be viewed as providing a competitive advantage to one potential applicant over another. On the other hand, helping States, for example, with data analyses, needs assessments, and facilitating meetings concerning planning the States' improvement activities could be, except as noted above, a part of the RRC's technical assistance activities to the States in their region. RRCs can also assist States in their implementation of a State Improvement Grant once those grants are awarded.

22. Can the State Use SIG Funds To Subcontract or Contract With the University or Entity in Which the RRC Is Located To Carry Out SIG Activities?

Yes. The State can use SIG funds to subgrant or contract with the University or entity in which the RRC is located to

carry out SIG activities. However, the University or other entity would need to ensure that personnel time and other resources covered by the RRC's cooperative agreement with the Department are not used to work on SIG activities performed under the subgrant or contract and that work done under the other subcontract or contract is not represented as being performed as part of the cooperative agreement with the Department of Education.

23. Can Technical Assistance and Dissemination (TA&D) Projects Funded by OSEP Play a Role in SIG Activities?

Similarly to RRCs, TA&D projects funded by OSEP must ensure that the services they provide are fairly and evenhandedly available to their respective audience (under the terms of their OSEP funding agreement/grant/contract) in all States, that the proposed SIG activity is permissible under the terms of the particular Project's funding agreement/ grant/contract/ with OSEP and that projects do not accept SIG funds under contract or grant with an SEA for activities they are currently receiving Federal funds to provide. In addition, TA&D projects, like the RRCs, should not engage in activities that could be seen as providing a competitive advantage to any one State over others in the SIG competition.

Relationship Between State Improvement Grant and Other Federal Statutes and Requirements

24. What Is the Link Between the Comprehensive System of Personnel Development (CSPD) and the SIG? What Are the Similarities and Differences?

The requirements for a CSPD as amended by IDEA Amendments of 1997 must be implemented by July 1, 1998 regardless of whether or not a State receives a SIG. Under section 612(a)(14) of IDEA, in order to be eligible for funding under Part B, a State must have in effect a comprehensive system of personnel development that is designed to ensure an adequate supply of qualified special education, regular education, related services, and early intervention personnel and that meets the requirements contained in the personnel development sections of the State Improvement Plan addressing needs assessment and improvement strategies. It is intended that the CSPD meet the SIG personnel development requirements so that it may serve as the framework for the State's personnel development part of a SIG grant application.

25. To What Extent Does the State Improvement Grant Proposal Have To Be Linked to the Elementary and Secondary Education Act of 1965 (ESEA) and the Rehabilitation Act of 1973?

To the "maximum extent possible" State improvement grant proposals must be linked to State plans under ESEA and the Rehabilitation Act of 1973. The IDEA Amendments of 1997 emphasize that children with disabilities have access to the general curriculum and general educational reforms. Although the legislation does not mention integration with any other State plans under any other Federal statute, because the State improvement grant proposal is focused on systems change for students with disabilities, integration with relevant State plans or projects would be beneficial (section 653(a)(2)(A)).

26. What Is the Relationship Between the Performance Goals and Indicators a State Must Have To Be Eligible for Part B and the State Improvement Grant Proposal?

Under Part B (section 612(a)(16)), in order to be eligible to receive financial assistance under Part B, the State must have in place by July 1, 1998 performance goals for children with disabilities that must promote the purposes of the IDEA and be consistent, to the maximum extent appropriate, with other goals and standards developed for children established by the State and performance indicators to assess progress toward achieving those goals. A State must have developed those performance goals and indicators in order to apply for a State Improvement Grant because in conducting the needs assessment required as part of its application, the State must identify those critical aspects of early intervention, general education, and special education programs that must be improved to enable children with disabilities to meet the performance goals and indicators established by the State for the performance of children with disabilities under section 612(a)(16). In submitting the required SIG performance reports to the Department under section 653(f), the State must describe the progress of the State in meeting the performance goals established under section 612(a)(16), analyze the effectiveness of the State's strategies in meeting those goals, and identify any changes in the strategies needed to improve its performance.

Monitoring and Corrective Action Plans

27. How Is the State Improvement Grant Aligned With Federal Compliance Reviews?

There are three areas in which the State Improvement Grant aligns with Federal compliance reviews: First, the State improvement plan must include an analysis of the major findings of the Department's most recent reviews of State compliance, as they relate to improving results for children with disabilities (section 653(b)(2)(C)). The second is that the State improvement plan must include a description of strategies that will address systemic problems identified in Federal compliance reviews, including shortages of qualified personnel (section 653(c)(3)(E)). The third area of alignment with monitoring is that in determining competitive awards we will give priority to applications on the basis of need, as indicated by information from the findings of Federal compliance reviews (section 653(d)(2)).

28. Can the State Improvement Grant Funds Be Used To Address Deficiencies Identified in Federal Compliance Reviews?

Yes, if the activities to address the deficiencies are consistent with the purposes of the grant and described in the State's application. If, for example, a Federal compliance review identified that a personnel shortage impacted on the provision of a free appropriate public education to students with disabilities, then it would be consistent with the purposes of the grant to use grant funds to address the personnel shortage.

Applications, Length of Awards, and Reapplication

29. Can the First Grant Be Written as a Planning Grant?

No. The purpose of the SIG program is to assist State educational agencies, and their partners referred to in section 652(b), in reforming and improving their systems for providing educational, early intervention, and transitional services, including their systems for professional development, technical assistance, and dissemination of knowledge about best practices, to improve results for children with disabilities. In order to be funded a State must include in its application improvement strategies that were developed to address State and local needs identified in the State needs assessment. The purpose of the needs assessment is to provide the necessary information to facilitate the development of a State improvement

plan that identifies those critical aspects of early intervention, general education, and special education programs that must be improved to enable children with disabilities to meet the goals established by the State under section 612(a)(16). In conjunction with the needs assessment, the improvement strategies (section 653(c)) subsumed in the State improvement grant proposal constitute the State's plan for the use of SIG funds.

30. What Grant Period Can a State Request in Its Initial Application?

A State may request a grant of from one to five years. However, we may award a grant that is shorter than the State requests, but not less than one year, if the State's application does not sufficiently justify the full requested duration.

31. If a Project Is Funded for Less Than Five Years, Can It Be Extended Later?

No, with the exception of relatively short "no-cost" extensions that are sometimes given to allow the completion of project activities. These extensions do not award new funds or approve new activities.

32. After a State Completes One State Improvement Grant, Can It Apply for Another? If So, Will It Compete Against All Applicants or only Against Other States That Have Received Previous Grants?

Yes, a State can apply for another SIG after it completes one. It will be in competition with all applicants, not just those with previous grants. We will give priority to applications on the basis of need (section 653(d)(2)).

33. If a State Applies Unsuccessfully in One Year, Will It Be Able To Apply Again?

Yes.

34. Will a Project Be Approved and Funded All at Once or a Year at a Time?

At the time of the initial grant award, the project duration of one to five years will be determined and budgets for all years of the grant will be established. However, funds can only be awarded one-year at a time. States receiving multi-year grants will submit annual performance reports to demonstrate that their grants are making *substantial progress*. Funding for project years after the first will be based, in part, on these reports. This is not part of the competitive process of awarding funds, and it is expected that funding will be continued each year for the duration of the project, provided that substantial

progress is demonstrated and that Congress continues to fund the program.

35. Does Funding Have To Be the Same for All Years of the Project?

No, but it cannot exceed \$2,120,000 or be less than \$530,000 or \$84,800 in the case of an outlying territory.

BILLING CODE 4000-01-U

OMB Control No. 1890-0007 (Exp. 09/30/2004)

NOTICE TO ALL APPLICANTS

The purpose of this enclosure is to inform you about a new provision in the Department of Education's General Education Provisions Act (GEPA) that applies to applicants for new grant awards under Department programs. This provision is Section 427 of GEPA, enacted as part of the Improving America's Schools Act of 1994 (Public Law (P.L.) 103-382).

To Whom Does This Provision Apply?

Section 427 of GEPA affects applicants for new grant awards under this program. **ALL APPLICANTS FOR NEW AWARDS MUST INCLUDE INFORMATION IN THEIR APPLICATIONS TO ADDRESS THIS NEW PROVISION IN ORDER TO RECEIVE FUNDING UNDER THIS PROGRAM.**

(If this program is a State-formula grant program, a State needs to provide this description only for projects or activities that it carries out with funds reserved for State-level uses. In addition, local school districts or other eligible applicants that apply to the State for funding need to provide this description in their applications to the State for funding. The State would be responsible for ensuring that the school district or other local entity has submitted a sufficient section 427 statement as described below.)

What Does This Provision Require?

Section 427 requires each applicant for funds (other than an individual person) to include in its application a description of the steps the applicant proposes to take to ensure equitable access to, and participation in, its Federally-assisted program for students, teachers, and other program beneficiaries with special needs. This provision allows applicants discretion in developing the required description. The statute highlights six types of barriers that can impede equitable access or participation: gender, race, national origin, color, disability, or age. Based on local circumstances, you should determine whether these or other barriers may prevent your students, teachers, etc. from such access or participation in, the Federally-funded project or activity. The description in your application of steps to be taken to overcome these barriers need not be lengthy; you may provide a clear and succinct

description of how you plan to address those barriers that are applicable to your circumstances. In addition, the information may be provided in a single narrative, or, if appropriate, may be discussed in connection with related topics in the application.

Section 427 is not intended to duplicate the requirements of civil rights statutes, but rather to ensure that, in designing their projects, applicants for Federal funds address equity concerns that may affect the ability of certain potential beneficiaries to fully participate in the project and to achieve to high standards. Consistent with program requirements and its approved application, an applicant may use the Federal funds awarded to it to eliminate barriers it identifies.

What are Examples of How an Applicant Might Satisfy the Requirement of This Provision?

The following examples may help illustrate how an applicant may comply with Section 427.

- (1) An applicant that proposes to carry out an adult literacy project serving, among others, adults with limited English proficiency, might describe in its application how it intends to distribute a brochure about the proposed project to such potential participants in their native language.
- (2) An applicant that proposes to develop instructional materials for classroom use might describe how it will make the materials available on audio tape or in braille for students who are blind.
- (3) An applicant that proposes to carry out a model science program for secondary students and is concerned that girls may be less likely than boys to enroll in the course, might indicate how it intends to conduct "outreach" efforts to girls, to encourage their enrollment.

We recognize that many applicants may already be implementing effective steps to ensure equity of access and participation in their grant programs, and we appreciate your cooperation in responding to the requirements of this provision.

Estimated Burden Statement for GEPA Requirements

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless such collection displays a valid OMB control number. The valid OMB control number for this information collection is 1890-0007. The time required to complete this information collection is estimated to average 1.5 hours per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. **If you have any comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to:** Director, Grants Policy and Oversight Staff, U.S. Department of Education, 400 Maryland Avenue, SW (Room 3652, GSA Regional Office Building No. 3). If the application is recommended/selected for funding, the designated ED official will request that the applicant obtain the assurance within 30 days after the specific formal request.
- Note about Institutional Review Board Approval.** ED does not require certification of Institutional Review Board approval with the application. However, if an application that involves non-exempt human subjects research is recommended/selected for funding, the designated ED official will request that the applicant obtain and send the certification to ED within 30 days after the formal request.
13. **Project Title.** Enter a brief descriptive title of the project. If more than one program is involved, you should append an explanation on a separate sheet. If appropriate (e.g., construction or real property projects), attach a map showing project location. For preapplications, use a separate sheet to provide a summary description of this project.

Definitions for Form ED 424

Novice Applicant (See 34 CFR 75.225). For discretionary grant programs under which the Secretary gives special consideration to novice applications, a novice applicant means any applicant for a grant from ED that—

- Has never received a grant or subgrant under the program from which it seeks funding;
- Has never been a member of a group application, submitted in accordance with 34 CFR 75.127-75.129, that received a grant under the program from which it seeks funding; and
- Has not had an active discretionary grant from the Federal government in the five years before the deadline date for applications under the program. For the purposes of this requirement, a grant is active until the end of the grant's project or funding period, including any extensions of those periods that extend the grantee's authority to obligate funds.

In the case of a group application submitted in accordance with 34 CFR 75.127-75.129, a group includes only parties that meet the requirements listed above.

Executive Order 12372. The purpose of Executive Order 12372 is to foster an intergovernmental partnership and strengthen federalism by relying on State and local processes for the coordination and review of proposed Federal financial assistance and direct Federal development. The application notice, as published in the Federal Register, informs the applicant as to whether the program is subject to the requirements of E.O. 12372. In addition, the application package contains information on the State Single Point of Contact. An applicant is still eligible to apply for a grant or grants even if its respective State, Territory, Commonwealth, etc. does not have a State Single Point of Contact. PROTECTION OF HUMAN SUBJECTS IN RESEARCH

I. Definitions and Exemptions

A. Definitions.

A research activity involves human subjects if the activity is research, as defined in the Department's regulations, and the research activity will involve use of human subjects, as defined in the regulations.

—Research

The ED Regulations for the Protection of Human Subjects, Title 34, Code of Federal Regulations, Part 97, define research as "a systematic investigation, including research development, testing and evaluation, designed to develop or contribute to generalizable knowledge." *If an activity follows a deliberate plan whose purpose is to develop or contribute to generalizable knowledge it is research.* Activities which meet this definition constitute research whether or not they are conducted or supported under a program which is considered research for other purposes. For example, some demonstration and service programs may include research activities.

—Human Subject

The regulations define human subject as "a living individual about whom an investigator (whether professional or student) conducting research obtains (1) data through intervention or interaction with the individual, or (2) identifiable private information." (1) *If an activity involves obtaining information about a living person by manipulating that person or that person's environment, as might occur when a new instructional technique is tested, or by communicating or interacting with the individual, as occurs with surveys and interviews, the definition of human subject is met.* (2) *If an activity involves obtaining private information about a living person in such a way that the information can be linked to that individual (the identity of the subject is or may be readily determined by the investigator or associated with the information), the definition of human subject is met.* [Private information includes information about behavior that occurs in a context in which an individual can reasonably expect that no observation or recording is taking place, and information which has been provided for specific purposes by an individual and which the individual can reasonably expect will not be made public (for example, a school health record).]

B. Exemptions.

Research activities in which the only involvement of human subjects will be in one or more of the following six categories of exemptions are not covered by the regulations:

(1) Research conducted in established or commonly accepted educational settings, involving normal educational practices, such as (a) research on regular and special education instructional strategies, or (b) research on the effectiveness of or the comparison among instructional techniques, curricula, or classroom management methods.

(2) Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior, unless: (a) information obtained is recorded in such a manner that human subjects can be identified, directly or through identifiers linked to the subjects; and (b) any disclosure of the human subjects' responses outside the research could reasonably place the subjects at risk of criminal or civil liability or be damaging to the subjects' financial standing, employability, or reputation. *If the subjects are children, exemption 2 applies only to research involving educational tests and observations of public behavior when the investigator(s)*

do not participate in the activities being observed. Exemption 2 does not apply if children are surveyed or interviewed or if the research involves observation of public behavior and the investigator(s) participate in the activities being observed. [Children are defined as persons who have not attained the legal age for consent to treatments or procedures involved in the research, under the applicable law or jurisdiction in which the research will be conducted.]

(3) Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior that is not exempt under section (2) above, if the human subjects are elected or appointed public officials or candidates for public office; or federal statute(s) require(s) without exception that the confidentiality of the personally identifiable information will be maintained throughout the research and thereafter.

(4) Research involving the collection or study of existing data, documents, records, pathological specimens, or diagnostic specimens, if these sources are publicly available or if the information is recorded by the investigator in a manner that subjects cannot be identified, directly or through identifiers linked to the subjects.

(5) Research and demonstration projects which are conducted by or subject to the approval of department or agency heads, and which are designed to study, evaluate, or otherwise examine: (a) public benefit or service programs; (b) procedures for obtaining benefits or services under those programs; (c) possible changes in or alternatives to those programs or procedures; or (d) possible changes in methods or levels of payment for benefits or services under those programs.

(6) Taste and food quality evaluation and consumer acceptance studies, (a) if wholesome foods without additives are consumed or (b) if a food is consumed that contains a food ingredient at or below the level and for a use found to be safe, or agricultural chemical or environmental contaminant at or below the level found to be safe, by the Food and Drug Administration or approved by the Environmental Protection Agency or the Food Safety and Inspection Service of the U.S. Department of Agriculture.

II. Instructions for Exempt and Nonexempt Human Subjects Research Narratives

If the applicant marked "Yes" for Item 12 on the ED 424, the applicant must provide a human subjects "exempt research" or "nonexempt research" narrative and insert it immediately following the ED 424 face page.

A. Exempt Research Narrative.

If you marked "Yes" for Item 12 a. and designated exemption number(s), provide the "exempt research" narrative. The narrative must contain sufficient information about the involvement of human subjects in the proposed research to allow a determination by ED that the designated exemption(s) are appropriate. The narrative must be succinct.

B. Nonexempt Research Narrative.

If you marked "No" for item 12 a. you must provide the "nonexempt research" narrative. The narrative must address the following seven points. Although no specific page limitation applies to this section of the application, be succinct.

(1) **Human Subjects Involvement and Characteristics:** Provide a detailed description of the proposed involvement of human subjects. Describe the characteristics of the subject population, including their anticipated number, age range, and health status. Identify the criteria for inclusion or exclusion of any subpopulation. Explain the rationale for the involvement of special classes of subjects, such as children, children with disabilities, adults with disabilities, persons with mental disabilities, pregnant women, prisoners, institutionalized individuals, or others who are likely to be vulnerable.

(2) **Sources of Materials:** Identify the sources of research material obtained from individually identifiable living human subjects in the form of specimens, records, or data. Indicate whether the material or data will be obtained specifically for research purposes or whether use will be made of existing specimens, records, or data.

(3) **Recruitment and Informed Consent:** Describe plans for the recruitment of subjects and the consent procedures to be followed. Include the circumstances under which consent will be sought and obtained, who will seek it, the nature of the information to be provided to prospective subjects, and the method of documenting consent. State if the Institutional Review Board (IRB) has authorized a modification or waiver of the elements of consent or the requirement for documentation of consent.

(4) **Potential Risks:** Describe potential risks (physical, psychological, social, legal, or other) and assess their likelihood and seriousness. Where appropriate, describe alternative treatments and procedures that might be advantageous to the subjects.

(5) **Protection Against Risk:** Describe the procedures for protecting against or minimizing potential risks, including risks to confidentiality, and assess their likely effectiveness. Where appropriate, discuss provisions for ensuring necessary medical or professional intervention in the event of adverse effects to the subjects. Also, where appropriate, describe the provisions for monitoring the data collected to ensure the safety of the subjects.

(6) **Importance of the Knowledge to be Gained:** Discuss the importance of the knowledge gained or to be gained as a result of the proposed research. Discuss why the risks to subjects are reasonable in relation to the anticipated benefits to subjects and in relation to the importance of the knowledge that may reasonably be expected to result.

(7) **Collaborating Site(s):** If research involving human subjects will take place at collaborating site(s) or other performance site(s), name the sites and briefly describe their involvement or role in the research.

Copies of the Department of Education's Regulations for the Protection of Human Subjects, 34 CFR Part 97 and other pertinent materials on the protection of human subjects in research are available from the Grants Policy and Oversight Staff, Office of the Chief Financial Officer, U.S. Department of Education, Washington, D.C., 20202-4248, telephone: (202) 708-8263, and on the U.S. Department of Education's Protection of Human Subjects in Research Web Site at <http://www.ed.gov/offices/OCFO/humansub.html>

Instructions for Certification

1. By signing and submitting this proposal, the prospective lower tier participant is providing the certification set out below.
2. The certification in this clause is a material representation of fact upon which reliance was placed when this transaction was entered into. If it is later determined that the prospective lower tier participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.
3. The prospective lower tier participant shall provide immediate written notice to the person to which this proposal is submitted if at any time the prospective lower tier participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
4. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of rules implementing Executive Order 12549. You may contact the person to which this proposal is submitted for assistance in obtaining a copy of those regulations.
5. The prospective lower tier participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency with which this transaction originated.
6. The prospective lower tier participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility, and Voluntary Exclusion-Lower Tier Covered Transactions," without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

9. Except for transactions authorized under paragraph 5 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.
